

BACKLINKS ANALYZER

Backlinks Analyzer is a PC application that will ensure that your backlinks are active, stay active, and that backlink companies deliver on their promises.

Just because buying backlinks doesn't break the bank it doesn't mean you should be ripped off by paying good money for links that only remain active for a matter of days.

If you're serious about the SEO of your site then you simply can't afford not to use Backlinks Analyzer!

This Software Is SUPER EASY To Use:

Step 1. Enter Your URL

Step 2. Paste in all your backlinks URL's

Step 3. Click Start

Within seconds you'll instantly know the PR for every URL, the anchor text, whether or not your backlink is found and if the backlink is Do Follow or not.

Trying to do this manually would be a time-wasting painstaking task, but with Backlinks Analyzer it's effortless!

You absolutely **MUST KNOW** this information **OR** it could cost your **BIG TIME**.
